RE: **Project Life-Link**

Dear Nigel:

We have reviewed your idea for providing stand-alone voice mail boxes for the thousands of homeless people in the Denver Metropolitan area and believe that your project can make an enormous contribution to that disadvantaged group.

In my past job as CEO of Urban Peak, you and Multi Link Communications provided voice mail boxes for homeless teens. The system was an invaluable support in breaking the cycle of homelessness. The ability to give out a personal telephone number to friends, family and, perhaps most important, prospective employers, and then to be able to receive personal messages toll free through any payphone in the City has an incredible impact on ending homelessness.

If you can find the necessary corporate and financial support for the project, we believe that the distribution of the telephone numbers can be quickly and efficiently handled in any number of ways.

Please stay in close contact with the Denver Commission on Homelessness and let us know if we can be of any assistance in putting this project together.

Thank you for your efforts.

Sincerely,

Roxane White
